SAM ANALYTIC SOLUTIONS

## Automation Technology Specialists

- SCADA Software
- Industrial Networking
- IOT
- Industrial PCs
- Analytics
- LiDAR
- RFID
- Cyber Security
- Software Development
- Image Processing
- Smart Technology

SAM Analytic Solutions is a leading provider of Industrial Automation and Control hardware and software solutions featuring a growing portfolio of information collection, reporting, process, discrete and edge analytics, cybersecurity, IIoT, computer vision, and image processing products and services.

SAM Analytic Solutions provides experienced engineers, developers, programmers, information architects, data management, and advanced technology experts in meeting a wide range of mission-critical Operational Technology (OT), Information Technology (IT), and Industrial Automation (IA) project needs.

SAM Analytic Solutions partners with integrators, machine builders, consultants, and automation maintenance firms to deliver solutions customized to meet technology needs of industry clients featuring:

- Direct access to world-class technology expertise.
- Exceptional technical support whenever and wherever you need it.
- Unmatched value for any type (and size) technology project.
- Expertise and proficiency in the latest technologies.
- One of the most talented engineering teams in the industry.
- Dedicated team of over 2000 technology specialists worldwide.

Industries

- Automotive
- Chemicals
- Energy
- Food & Beverage
- Healthcare
- Industrial Products
- Medical Devices
- Manufacturing
- Pharmaceuticals
- Water & Wastewater
